TITLE : MONITOR IN IMAGE PROCESSOR

ABSTRACT : PURPOSE: To constitute the monitor so that information outputted from an image processor can always be referred to in a position of a teaching operating panel.

CONSTITUTION: To a teaching operating panel of an image processor, a miniature TV monitor 3 of a liquid crystal is attached so as to be freely attachable and detachable. Also, the teaching operating panel 1 and the TV monitor 3 are connected with a video signal cable 7. Moreover, in a connecting cable 2 of the teaching operating panel 1, a transmitting line for sending a video signal from the image processor is provided therein. In such a way, the video signal from the image processor is transmitted to the TV monitor 3.
